To Our Residents and Family Members:

We want to inform you that we have received confirmation that several other cases of COVID-19 have developed at Notre Dame Health and Rehabilitation Center in recent days. Notre Dame with the assistance of CT-DPH has reviewed our containment and recovery plan for the facility regarding the virus spread. Our resident's safety is of our highest priority. We are doing everything we can to ensure we stop the spread of COVID-19 within our facility.

We are in regular collaboration with Dr. Richard Huntley, our Medical Director, regarding our plans to cohort like symptomatic residents while isolating other residents. These plans to protect our residents can be complicated and may require residents to move within the facility to areas in the facility to prevent further spread of the virus. Our facility is in regular communication with local and state health officials to ensure we are taking all the appropriate steps to protect your loved ones. We continue to not permit visitors per CDC and the local health departments' guidelines into the facility.

We encourage you to call our center at 203-847-5893 for updates on the status of your loved one. Family members are encouraged to connect with their loved ones through video chat, calling, texting, or other social media formats. We will contact you if your loved one is suspected or diagnosed with COVID-19. Please visit the [Centers for Disease Control and Prevention \(CDC\) website](#) to learn how you can help prevent the spread in our community. We know this is a difficult time for everyone.
